---

* CUYAHOGA COUNTY CASE is defined as an individual who is classified as infected with HIV or diagnosed with AIDS as a resident of Cuyahoga County at the time of diagnosis, is believed to have been infected while a resident of Cuyahoga County or resided in the county at last report.

(a,b,c) The Ohio cumulative data through 2011 were obtained from the ODH HIV/AIDS Surveillance Unit. Data reported through June 30, 2013. (Provisional data received as of June 20, 2014)

(d) Total numbers of cases include cases whose gender were not reported. (e) Percentage, excluding those not reporting risk (RNR) Dash or hyphen indicates no cases were reported (or % calculated) for the given category.
