Vibriosis, other (not cholera)	0	0	0	0,0
Yersiniosis	0	0	2	1,6

* MMWR Weeks 31-34

¹ Suspected cases for Creutzfeldt-Jakob Disease and E. Coli O157:H7 and other enterohemorrhagic are no longer being included in summary, therefore these numbers may be lower than reported on the 2008 Quarterly Summaries

² Influenza-associated hospitalizations did not become reportable until January 1, 2009, therefore historical data is not available

³ Varicella became a Class A disease in 2006, therefore the medians are calculated from 2006-2008
